II. Throughout human history, every society has faced the issue of how to deal with people who break the law. A commonly used option is to put them in jail or some other facility. When criminals have completed their time behind bars, they are considered to have paid back their debt to society. However, employers do not want to hire anyone who was once a(an) \_\_21\_\_, as he or she could pose a risk to the company.

One solution is to “forget” the crime by deleting the official criminal record. If employers \_\_22\_\_ about a job applicant's background, there will be no record of time spent in prison. An advantage of this is that people who have gone to jail will not be treated with \_\_23\_\_ for the rest of their lives. If crimes are

I. The British remake of the French musical based on the 19th century novel *Les Misérables* by Victor Hugo swept the globe in the 1980s and 1990s. The stirring music and special effects drew millions of people to the show, along with the moving story and the powerful request for equality through revolution. Not only did it thrill a generation of theater goers, but it inspired a revolution of its own.

The story focuses on the lower class in the 19th century in France, and specifically, on Jean Valjean, a man who is constantly trying to better himself and others in a world that is cruel and unfair. After serving an extended jail term for stealing food to feed his family, he is labeled as an ex-convict for the rest of his life. Trying to remove this label, he changes his identity. ### III.(素養混合題)

#### The Debate on Euthanasia

The word, euthanasia, is from the Ancient Greek, meaning "good death." It is the practice of ending a life, usually with an injection. The ancient Greeks and Romans considered suicide tolerable if there was no hope for the patient. For example, the elderly could choose euthanasia if they wished. Nowadays it is only legal in a few countries.

Even in Taiwan, euthanasia is still illegal despite the fact that there are many people hoping to legalize euthanasia under certain circumstances.

Euthanasia is a deeply debated topic. Some people think it is murder while others think it is mercy. Supporters of euthanasia believe the quality of life is more valuable than how long you live. Also, the medical costs used on keeping someone merely alive may be better used on a cure for a disease.

Other people believe euthanasia is against the oath that a doctor makes. When medical students become doctors, they take an oath in which they promise to never cause a death through a deadly prescription. Another belief is that euthanasia is morally wrong. It is considered suicide by some people. And if you assist someone to end his or her life, that is murder. In the film, *The Sea Inside*, the main character, Ramon, is **paralyzed** and wishes to commit suicide. During an argument with a priest, the priest tells him “Freedom without a life is not freedom.” However, Ramon answers with “A life without freedom is not a life.”
